

Background

Rural Parliament of Estonian Villages is the 3 days event organized by Estonian Village Movement Kodukant since 1996. RP brings together village members, organizations, local and national representatives with the aim to discuss the issues and look for solutions to the problems facing rural development. Participants are brought together every two years to discuss the problems of the countryside and bring them to governmental decisions. Estonian Rural Parliament will provide also a good platform for discussion and exchange of ideas and best practice between international organizations connected with the rural development in different European countries.
